Here we are delighted to bring to the local market this modern corner villa, which has been lovingly improved to an exceptional standard. The property comprises internally two double bedrooms, two spacious bathrooms large lounge/dining area, independent kitchen with separate utility and storage room. Originally, leading from the bedrooms was a large terrace, which has now been enclosed giving more space for recreation. Parquet flooring has been installed throughout. Above is a large solarium enjoying unobstructed views across the Vega Baja, to the front of the property large porch and tastefully designed and set out garden area. There is a beautiful communal pool surrounded by lawn and mature palms. A truly unique example, viewing essential.
