Beautiful front line beach villa located right next to the AcequiÃ³n beach in Torrevieja. The property itself consists of 6 spacious bedrooms, 3 bathrooms, a living rooms with views to the sea and a very large kitchen. Torrevieja was originally a salt-mining and fishing village as it is located between the sea and two large salt lakes (Las Salinas), which give Torrevieja a healthy microclimate. When you walk in through the main door, on your left hand side you have the hallway that leads you to 4 of the bedrooms on this lower level, here you are also able to 2 of the bathrooms. Two of these bedrooms have views to the sea which is magnificent when you wake up. On this level we also have a spacious living room which gives you access to the garden where the private pool is located. In the living room itself you also have a door that takes you to a storage room. Next to the living room we have the kitchen. On the first floor we have the remaining two bedrooms, one of them having it's own bathroom and terrace.
