This perfectly positioned east-facing corner villa is located in the highly sought-after Daysol III development. A TM designed and finished property makes this property more attractive than the average. To the ground-floor there is a large lounge dining area, ample fully equipped independent kitchen with separate utility room, large shower room and walk in storage. Both first-floor double bedrooms enjoy access via patio doors onto the sun terrace and share a spacious bathroom. Above is a large solarium, with open countryside views. Due to its position the garden and covered terrace areas are south-facing and are ideal for al fresco entertaining, any time of day. A great opportunity to purchase your realistically priced holiday or permanent home in the sun.
