

Ref: 3222Q

Town house, Abanilla

35,000€

This property is set out over four floors and is a good size throughout. The front door opens directly into the lounge which leads into the kitchen with a dining area. Between the two there is a very small alcove where there is currently a small table and 2 chairs. Stairs lead up from the lounge onto a long corridor with a very large bathroom off to the left and a double bedroom at the end. A further flight of stairs leads to an identical long corridor and two further bedrooms and another small staircase which takes you directly into the fourth bedroom with a sink. This room has doors taking you out onto the solarium overlooking the town and mountains. All the bedrooms are large doubles including the top one which benefits from lots of natural light. All the windows are long with shutters giving the property a real Spanish feel which has retained many original features. The house is on a very small street which is directly off the centre of town where the water fountain can be found.
