Located in Rojales, one of the most sought-after residential areas in southern Alicante, this new-build development features spacious apartments and penthouses. The project has been designed to offer functionality and comfort, with carefully planned layouts that create bright, spacious areas tailored for everyday life within a contemporary residential complex. The homes feature 2 bedrooms and 2 bathrooms, making them ideal for families or those needing extra space for guests or home office. Each room has been designed to find the perfect balance between comfort and privacy within an exclusive residential setting. The development is situated in a peaceful and well-connected environment, just a few minutes away from the beaches of Guardamar del Segura and in the heart of the Vega Baja del Segura, surrounded by nature. Proximity to the sea, the Mediterranean climate, and the availability of year-round services make these homes a perfect choice for both a permanent residence and a property investment.
