Here we're delighted to offer onto the market this very spacious four bedroom uniquely designed detached property. Having the most utilised area facing south and occupying the corner plot we feel greatly enhances this villa's desirability. The clever design has allowed on the ground-floor for the master bedroom to be completely separate with its own bathroom, from the second and third bedrooms and main bathroom. The fourth bedroom is self-contained to the first floor and enjoys the use of it's own bathroom and kitchenette. An ample 1188 m2 plot has been nicely utilised, mostly gravelled with mature palms, there's also a small orchard with fruit trees where it'll be lovely for you to relax. A terrace surrounding the 10 X 5 metre pool (pre-installation for heating system) with pergola for outdoor entertaining, there are also double gated entrances with parking to two sides of the plot. The main entrance to the house is via a tastefully designed courtyard area. Viewing is absolutely essential to fully appreciate everything this beautiful villa has to offer.
