We're delighted to bring to the market this beautifully modernised, detached luxury property. Its spacious design and modern finish make this a truly unique villa, so amongst the most sought-after currently available. From the entrance hall we enter the spacious and bright lounge area with glass curtains overlooking the well maintained, mature gardens. To the other side of the ground floor there's a large open-plan kitchen with dining area. Marble stairs flow gently (by design) up to the bedrooms, the enormous master bedroom has its own sun terrace, en-suite bathroom and walk-in dressing room, with access also to the solarium above. Additional features of the living area include; installation for gas central heating, air-conditioning throughout and log burner. Half of the 4,584 m2 plot has been fenced and gated and enjoys having a summer kitchen/BBQ area alongside the modern-styled private pool with thoughtfully designed and placed water features. The plot and its terraces have been maintained to the standards you'd expect from this type of property and the countryside views to the mountains and lake are spectacularly good.
