Situated in the heart of the village this totally reformed 3 bedroom, 2 bathroom property is a delightful example. The house has been rewired with new plumbing throughout, what was once the garage has been cleverly converted into a second reception/dining area, to the rear of the property has been added a utility area, bathroom and large room leading onto terrace. Originally a 4 bedroom, the upstairs bathroom has been extended into the smaller of the bedrooms, the remainder making a dressing room area for the master bedroom, which also leads onto solarium. The second and third double bedrooms have doors leading onto the balcony to the front of the house. This gorgeous house has parquet flooring, central heating and is air conditioned throughout. Must v be viewed to fully appreciate the many quality features of this property.
