What a beautiful property! Originally built in 1997, this spacious house was totally renovated both inside and out in 2008 to exceptionally high 21st century standards. To the living area there are 3 bedrooms, independent kitchen + utility and large lounge/dining room. To the front of the house there's a large tiled terraced area, to the rear a large patio with stairs leading to the basement. To the basement a second kitchen and fireplace have been installed to the second reception area which could easily be utilised for separate living accommodation if required. There's also a basement garage and parking. This house is packed full of so many quality features, including: parquet flooring throughout the living area, water purifier, ducted hot and cold air conditioning and hydro-spa bath. Viewing essential.
